

cc.thebus.mobi Quick Start Guide

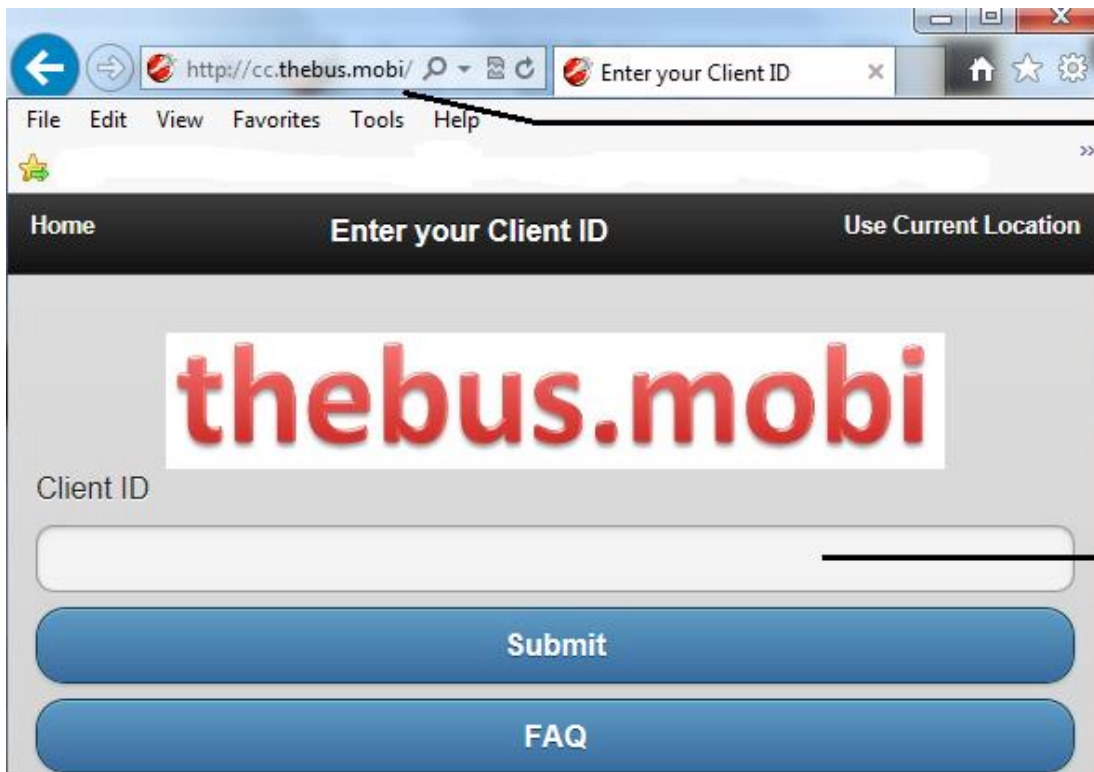

cc.thebus.mobi allows passengers to quickly and easily track the location of their bus and determine the arrival times. A few other features of thebus.mobi include:

- ✓ Secure login allows the user to see only their bus route(s)
- ✓ Ability to see your bus location in real time, as well as pick-up and drop-off times
- ✓ Text-based scheduled departure and estimated departure for the bus route based on its current location
- ✓ Interactive map that shows the bus location as the bus travels its route

Once you have accessed the site, you can save a shortcut to your device's home screen so you can access it quickly and easily in the future. If using an Apple iOS device, simply click the arrow box icon on your browser screen, and select Add to Home Screen. If using an Android device, bookmark the page, then go to your home screen, press the screen for 1-2 seconds until a menu box appears, click Add To Home Screen, and select thebus.mobi.

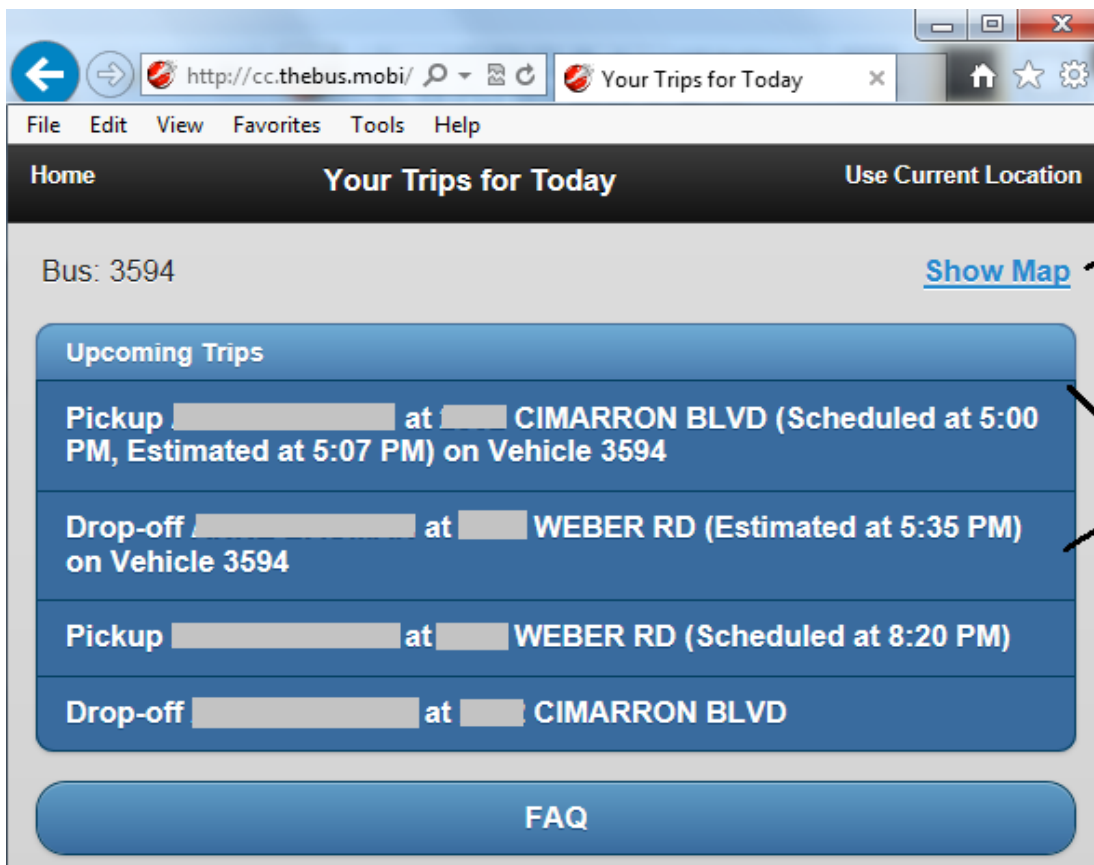

Accessing thebus.mobi

Any browser can go to cc.thebus.mobi

Enter your Client ID Number

Click Show Map to view the map

Pickup and dropoff shows the Scheduled Time, Estimated Time (within 90 minutes of scheduled time) and vehicle serving the trip
